

# UTHANDI P

Full-Stack Developer | Python, Ruby on Rails, .NET, React

Chennai, India | 8778285621 | uthandi40@gmail.com | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Full-Stack Developer at Francium Tech, building backend services and the frontends on top of them across the Ruby on Rails, .NET, Python, and React/Vue ecosystems. Outside of client work, independently designed, built, and shipped six full-stack SaaS-style applications - covering multi-tenant project management, appointment scheduling, link analytics, customer support, inventory management, and subscription billing - each with real backend domain logic, automated test coverage, and a CI pipeline, not just CRUD scaffolding.

## CORE SKILLS

**Languages & Frameworks:** Python, Ruby on Rails, C#, .NET, .NET MAUI, JavaScript, React, Vue 3, Angular

**Backend:** REST APIs, JWT Authentication, FastAPI, Express.js, Node.js, Entity Framework Core, SQLAlchemy

**Databases:** SQLite, MongoDB, MySQL, MS-Access

**Testing & CI/CD:** RSpec, pytest, Vitest, xUnit, GitHub Actions

**Tools:** Git, GitHub, Visual Studio, VS Code

## PROFESSIONAL EXPERIENCE

**Full-Stack Developer | Francium Tech** Feb 2025 - Present | Chennai, India

- Develop and maintain full-stack applications across Python, Ruby on Rails, Vue 3, .NET MAUI, .NET, and React, working the full stack from database schema to UI.
- Build scalable backend services and REST APIs, paired with responsive, user-facing frontends.
- Collaborate with cross-functional teams in an Agile workflow to deliver high-quality, production software.
- Apply secure coding practices, code review, and performance optimization across projects.

*Technologies:* Python, Ruby on Rails, Vue 3, .NET MAUI, .NET, React

## FEATURED PROJECTS

**BoardRoom** (Own Project) — [github.com/uthandi010/BoardRoom](https://github.com/uthandi010/BoardRoom)

Multi-tenant project management platform - workspaces, boards, and tasks, with Owner/Admin/Member roles enforced server-side on every request.

*Technologies:* C#, ASP.NET Core, Entity Framework Core, React, TypeScript, SQLite, xUnit

**BookedIn** (Own Project) — [github.com/uthandi010/BookedIn](https://github.com/uthandi010/BookedIn)

Appointment-booking SaaS for small businesses; an availability engine computes real free time slots from business hours and existing bookings, plus a public no-login booking page.

*Technologies:* Ruby on Rails, Vue 3, SQLite, RSpec

**LinkFolio** (Own Project) — [github.com/uthandi010/LinkFolio](https://github.com/uthandi010/LinkFolio)

Link-in-bio builder with click tracking built in, rolled up into an analytics dashboard with daily trends and per-link breakdowns.

*Technologies:* Python, FastAPI, SQLAlchemy, React, pytest

**HelpDeskly** (Own Project) — [github.com/uthandi010/HelpDeskly](https://github.com/uthandi010/HelpDeskly)

Customer support helpdesk with full ticket lifecycle management, email-gated customer self-service, and an agent-facing analytics dashboard.

*Technologies:* Node.js, Express, MongoDB, React

**ShelfSpace** (Own Project) — [github.com/uthandi010/ShelfSpace](https://github.com/uthandi010/ShelfSpace)

Inventory and order management for a small seller, paired with a native .NET MAUI desktop client; all-or-nothing stock validation and price snapshotting on every order.

*Technologies:* C#, ASP.NET Core, .NET MAUI, Entity Framework Core, SQLite

**PayDesk** (Own Project) — [github.com/uthandi010/PayDesk](https://github.com/uthandi010/PayDesk)

Subscription billing and invoicing SaaS with a pluggable payment-gateway interface, generated PDF invoices, and a revenue dashboard with MRR normalized across monthly and yearly plans.

*Technologies:* Ruby on Rails, React, Recharts, RSpec

## EDUCATION

**M.Sc. Computer Science & IT** | Alagappa University | 2023 | 80%

**B.Sc. Computer Science** | Alagappa University | 2021 | 69%

## CERTIFICATIONS

- Python Full Stack - Accord Info Matrix
- .NET Full Stack - Accord Info Matrix
